

**Client:** Don Whitley Scientific  
**Project:** Systec Autoclave – Release  
**Status:** Draft 1 – for approval  
**Date:** 29<sup>th</sup> October 2007

---

1 **EASIER, FASTER AND SAFER STEAM STERILISATION**

2 An extensive range of Systec autoclaves is available from specialist UK partner,  
3 Don Whitley Scientific. With a sleek, modern look and rapid heating and cooling  
4 cycles, the innovative autoclaves meet the needs of today's laboratory for safe,  
5 precise and reproducible steam sterilisation.

6  
7 The range includes vertical (V-Series), horizontal (D-Series) and double door (D-  
8 Series 2D) autoclaves, each with three models (X, E, B) offering different  
9 performance characteristics. For rapid, effective sterilisation with options for  
10 process optimisation, the Xpert model provides the greatest flexibility. The  
11 Everyday model is designed for routine laboratory use being both robust and  
12 reliable, and for straightforward applications the Basic model provides a cost  
13 effective solution. Available in a variety of sizes from 23 to 200 litres, there are a  
14 total of 48 models suiting every application and budget.

15  
16 With UKAS laboratory accreditation and BS EN ISO 9001:2000 approval, Don  
17 Whitley Scientific offers a calibration and validation service for all autoclaves to  
18 ensure regulatory compliance. Supported by a nationwide network of engineers this  
19 forms a key part of the company's 'one stop shop' for the supply and service of  
20 laboratory equipment.

21 **ENDS**

22 **Editor's note**

23 Don Whitley Scientific Limited is an independent family owned business founded by  
24 Don Whitley in 1976. It has rapidly grown to be a leading supplier of innovative  
25 equipment to the microbiology industry and a leading microbiology contract  
26 laboratory. The company sells to both public and private sectors throughout the  
27 world from its base in Shipley, West Yorkshire.
